# Total Waste Solutions

**Combining nationwide coverage with 35 years of industry experience, we offer 24/7 nationwide skip hire, waste management and recycling services tailored to your particular needs – private or commercial; whatever your waste and wherever you are.**

## Recycling

Recycling has always been important to us, but today it's often the first thing we are asked about by many customers.

At our 14-acre purpose built facility on Cross Green Industrial Park in Leeds, West Yorkshire **we annually process up to 300,000 tonnes of waste and recycle 98% of it** – a statistic we are extremely proud of, but one we are striving to improve.

We are committed to managing waste in the most environmentally, sustainable and cost effective way possible.

Our Materials Recovery Facility (MRF) means that if a customer doesn't segregate and recycle their waste on-site we'll do it for them – a process that can eliminate the need for multiple bins on-site, saving both space and money.

## Compliance

Our **Waste Management and Recycling Service** takes into account the waste hierarchy as outlined in Regulation 12 of the Waste Regulations 2011, ensuring each and every one of our customers is fully compliant with the law at no additional cost.

We are continuously mindful of all current legislation, and planned future legislative changes that could impact our customers or our variety of services; covering waste management, skip hire and recycling.

We also have every necessary and relevant accreditation, including **ISO14001, ISO9001 and PAS402**, meaning you can deal with us with complete confidence.

## Embracing Technology

We operate a **fleet of 75 waste management and skip hire vehicles**, all of which are **fitted with the latest tracker and camera systems** (Halo) from SMUK. This technology enables us to give our customers accurate delivery times; closely monitor our carbon footprint; and enhance the driver's ability to clearly see other road users, wherever they may be around the vehicle.

We also operate ISYS' **Weighsoft online customer and supplier portal**, which features numerous mobile applications and modules, and enables us to provide all required recycling and waste reports quickly and easily.

## Why use LSS?

**We are firmly focused on the future and our vision is to be recognised as a leading, strong, sustainable, innovative, technologically advanced and forward thinking company that always puts its customer at the forefront of everything it does.**

**By choosing us you are optimising your recycling and moving to a more sustainable waste management solution for the future.**

**WE RECYCLE 98% OF ALL WASTE RECOVERED**

# Skip Services

Having begun life back in the 1980s as a skip hire business, it should come as no surprise that we have one of the most comprehensive skip hire services in the UK.

We have skips available in a variety of sizes and designs, meaning we can meet all possible waste management requirements – whether for business or private use.

Ideal for driveways and small spaces

Great for small building projects

Available as a crane skip/ enclosed or drop door

## Mini Skip (2YD)

Surprisingly robust for their size, and ideal for small building projects or domestic clearances, our Mini Skips are typically used for low volume waste disposal. Due to their compact nature they are ideal for small spaces and driveways.

## Midi Skip (4YD)

Our Midi Skips are ideal for small building projects or larger domestic clearances. They are typically used for low volume waste disposal and due to their compact nature they can also be used in small spaces and on driveways.

## Maxi Builders' Skip (8YD)

Ideal for the construction industry, our Maxi Builders' Skips can also be used for house and garden clearances, inert material, or anywhere that requires the disposal of bulky items. They can be supplied **open** or with a **drop door**, **enclosed** or as a fully tested **crane skip**.

“ LSS [Waste Management] is a great company. They are easy to deal with, reliable, reactive and well-priced. I have used them for over 12 years and would highly recommend their [waste management and skip hire] services. ”

Joe McDermott  
Project Surveyor – Wates

Lockable enclosed  
option available

## Maxi Jumbo Skip (14YD)

Our Maxi Jumbo Skips are ideal for use in the construction industry and can also be used for larger house and garden clearances, or anywhere that requires disposal of bulky items. They can be supplied either **open** or **lockable enclosed**.

## Skip Fabrication

We have our own in-house fabrication facility that allows us to maintain and manufacture our own skips.

Our skips can be manufactured in any size, and can even be customised in different corporate colours, complete with business branding.

## Why use LSS?

**We have skips for any requirement; a collection and delivery service that means you'll get the skip you want when you want and get it taken away at a time of your choosing; and a pricing structure that competes favourably with any other skip hire operator.**

# Roll-on, Roll-off Skips

**For one-off jobs, permanently sited and contract work where high volumes of waste are produced, our permanently sited Roll-on, Roll-off (RORO) Skips are the perfect solution.**

**Available in two sizes, these high capacity containers can be delivered anywhere in the UK; are collected and removed when full; and can always be replaced with an empty skip.**

Can be used for inert material

Lockable, enclosed and compactor bin options

Available as one-off or contract hire basis

## RORO (25YD)

Perfect for construction sites, manufacturing facilities, retail outlets or businesses where a high volume of waste material is generated, our 25YD Roll-on, Roll-off Skips are supplied **open** and can be used for inert material.

## RORO (35YD)

Used on construction sites, manufacturing facilities, retail outlets or businesses where a high volume of waste material is generated, our 35YD Roll-on, Roll-off Skips can be supplied either **open** or **lockable enclosed**.

## Tipper Hire

We have a fleet of 8-wheel tipper vehicles available for hire for bulk delivery or collection from site. Ideal for the removal of inert or recyclable material, we can arrange for these vehicles to be used on either a one-off or contract hire basis.

## Why use LSS?

Using our Roll-on, Roll-off Skips saves money as these high capacity containers require emptying far less frequently than smaller skips.

# Wheelie / Euro Bin Service

**Our Euro Bin service is the preferred option for many small to medium sized businesses; including shops, offices and businesses with limited access.**

Euro bins are ideal where compactable waste such as paper, cardboard and plastic waste is being generated, and ours are available in four sizes – **240, 360, 660 and 1,100 litres**.

They can all be supplied with lockable lids and fitted locking wheels, a measure that provides security and allows them to be easily manoeuvred.

All of our Euro bins are available on a rental basis, are serviced at agreed intervals, and are offered with a flexible seven day service.

We take care of all the requirements of waste transfer documentation to ensure compliance with all relevant legislations.

## **Why use LSS?**

**We are one of the leading independent waste management businesses in the UK. We work with thousands of companies and individuals every year; and since our formation in 1984, our customers have included many of the most prestigious names in British business.**

**This has been achieved by working exceptionally hard for our customers; ensuring we manage and recycle their waste in a responsible, sustainable and cost effective way.**

# Front-end Loader

**Our fleet of Front-end Loaders (FELs) is ideal for compactable waste such as paper, cardboard, plastic and general office waste.**

8YD<sup>3</sup> FEL bin with lockable lid

We supply and empty FEL bins in-situ, using one of our specialist FEL vehicles to lift the bin, empty its contents into the truck's fixed high-capacity container, and return the empty bin to its agreed position.

All of our FEL bins have an 8 cubic yard capacity and can easily be moved with a forklift. They have been designed specifically for customers' ease of use, and feature an optimised loading height, and lockable lids.

Our FEL bins are **served when it suits our customers**, and can be placed on a schedule so they can be emptied as often as required.

The FEL bin service also **includes all waste documentation management**, complete with a full audit trail.

Easily moved with a forklift

“ LSS [Waste Management] are a professional and reliable company who have a can do attitude and are always willing to help the customer. ”

Neil Price  
Purchasing Manager – Persimmon Homes

## Why use LSS?

**Demand for our FEL bins has grown dramatically over the years, with evermore business owners and decision makers reaching the conclusion it is the most economical and sustainable form of waste disposal for their business.**

# Wait & Load Service

**Lots of businesses don't have the luxury of space for skips and high capacity containers to be left sitting outside their premises while they fill them – especially in busy urban locations.**

Our Wait & Load Service was designed specifically for businesses looking to access commercial waste management services, but unable to use traditional methods, either because of space, access or local council restrictions.

Up to 24 yards of cubic waste can be placed into our Wait & Load caged vehicles (that equates to three tonnes of waste) making them ideal for everything from one-off office clearances through to regular development collections.

We can supply manpower with all Wait & Load bookings upon request.

Ideal for city  
centre locations

Able to carry 24YD<sup>3</sup>  
of waste

## Why use LSS?

**Customer service is at the forefront of everything we do, and our innovative Wait & Load Service was designed to make life easier for our customers. If the service alone isn't enough to win people over, we like to then let them know that the vehicle can come complete with manpower who are able to help with loading.**

# Hazardous Waste

**Waste management is a highly regulated industry and there is a lot of waste that is classed as hazardous – meaning it has to be disposed of correctly and officially by specialists.**

We offer the licensed, safe removal of **asbestos, contaminated soils, tyres, fridges, diesel, spray cans, light tubes** and **paint tins, mastics** and **solvents**, and more.

Our Hazardous Waste Disposal Service also takes care of all related waste management documentation, and includes a full audit trail, including the necessary Section 62 paperwork.

Hazardous waste must be collected and disposed of by an authorised contractor licensed by the Environment Agency

“ LSS [Waste Management] are amongst the most professional, cost effective and well-managed skip [hire and waste management] companies we currently use. The waste reporting system in place is second to none, which has massively reduced the resource needed to calculate and input data into the portal for BREEAM contracts. ”

Andrew Marshall  
William Burch & Sons Ltd

## Why use LSS?

**Hazardous waste disposal is one of the most complex areas of waste management, with the red tape surrounding it almost as difficult to navigate as the disposal of the waste itself.**

**Our compliance team ensures we can confidently state we are up-to-date with every aspect of every relevant piece of legislation, meaning you can deal with us with the utmost confidence.**

# Nationwide

**Although we are a Leeds-based business, every one of our services is available nationwide – meaning you can work with us wherever you live or work in the UK.**

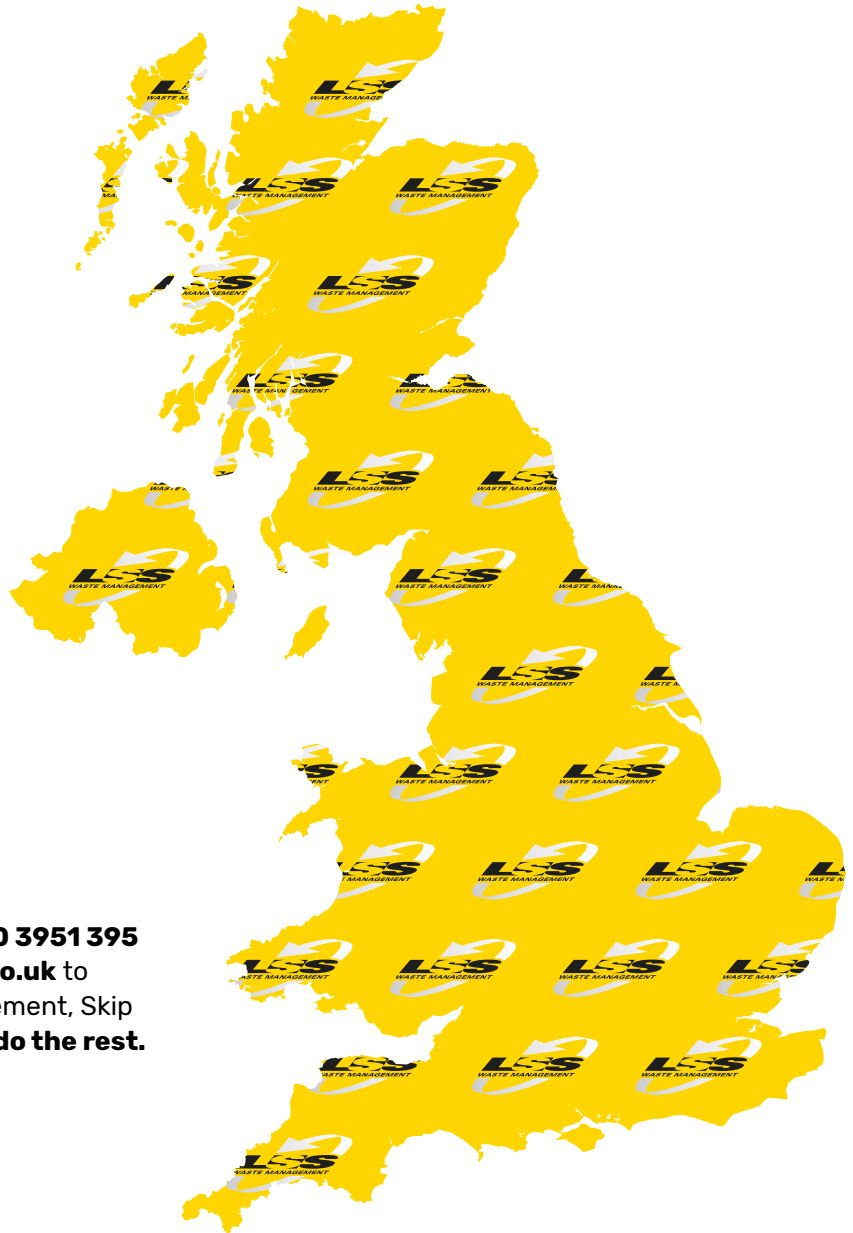

Thanks to our nationwide service, existing customers can choose us when they're working further afield, removing the need and inconvenience of trying to source a reputable company that will provide the same waste management service at an extremely competitive price.

And that's even before the hassle of setting up new accounts for a new supplier is taken into consideration.

**We have a network of Nationwide Supplier Partners and through them we guarantee to:**

- ✓ Provide access to a complete range of containers, from the smallest Mini Skips through to our largest Roll-on, Roll-off Skips.
- ✓ Manage all Waste Disposal efficiently and effectively.
- ✓ Handle all Hazardous Waste.
- ✓ Deliver complete satisfaction.

**Just call our dedicated team on 0800 3951 395** or email [nationwideskips@lsswaste.co.uk](mailto:nationwideskips@lsswaste.co.uk) to discuss your out-of-area Waste Management, Skip Hire and Recycling requirements. **We'll do the rest.**

## Why use LSS?

**Unlike the big national companies with multiple sites, multiple managers and multiple contact numbers, we are a local company with a national outlook. Working with us will see you dealing with the same people for any job, whether it's in Leeds or Liverpool, Aberdeen or Bristol.**
